INTRIGUED LOT: The Indian Institute of Astrophysics (IIA), Raman Research Institute (RRI) and National Institute of Mental Health and Neurosciences (Nimhans) on Tuesday celebrated National Science Day. Their campuses were open to the public with a host of experiments and other activities. The IIA ended its three-day open day while Nimhans had a theme – Global science for global well-being. At RRI, whose founder's discovery – the Raman Effect – is marked on this day, a host of activities were carried out. On this occasion, former Isro chairman K Kasturirangan, chief postmaster general, Karnataka, S Rajendra Kumar, and RRI director Prof Tarun Souradeep jointly released a special cover themed on National Science Day
